

LEIPOLD
TURNING

FOR OVER 105 YEARS

VARIETY IN SERIES

LEIPOLD IS SYNONYMOUS WITH HIGH-PRECISION
MANUFACTURING FOR COMPLEX TURNED PARTS.

Many millions of custom components
leave our production every year.
Made of various materials.
Using different machine concepts.
With geometries of all kinds.
For diverse applications.

WE ARE TRUE INDUSTRY EXPERTS

Mobility

With components for combustion vehicles, electrified drive trains, trains and e-bikes: Leipold is helping to shape the future of mobility.

Industrial applications

Tailored to your application: we design your ideal component – Including marking and packaging if required.

Connectivity

Building services and automation: we make custom connections for every situation.

Aerospace

Durable and robust: fly safe with Leipold components.

STRONG FOUNDATIONS

LEIPOLD IN NUMBERS

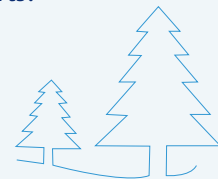

250.000.000 turned parts leave our production facilities every year.

Over 105 years of experience in the manufacture of turned parts.

2.000 products in our standard portfolio.

4 generations of family ownership dating back to 1919.

210 employees many from the second or third generation of their family.

THE RIGHT SOLUTION FOR EVERY PART

CUSTOM-MADE. COST-EFFECTIVE. EFFICIENT.

With over 80 machines, we can meet your custom requirements in whatever lot sizes you prefer – and produce them economically.

Our experts work closely with you to determine the most efficient machine concept for your needs.

A LONG-TERM PRODUCTION PARTNER AT YOUR SIDE

WE ARE MUCH MORE THAN A SUPPLIER.

Smarter design

Optimized components, custom-coordinated production, guaranteed part quality.

Supplier consolidation

Simplify coordination by consolidating your supplier base.

Value-creation depth

From raw material procurement to part-specific post-processing – all from a single source.

Outsourcing partner

Outsource your machining to us – we'll support you every step of the way.

Certified for decades

Our most important certifications are IATF, ISO 9001, ISO 14001 and EMAS.

ALLIANCES

The Turning Partner – An alliance with METUSAN TURNING, which aims to achieve common goals by pooling resources, expertise and technologies:

METUSAN Turning is based in Wolkersdorf near Vienna.

The company is focussed on brass alloys with a large variety. The machine portfolio can deal with small to large quantities in a wide diameter range.

PRECISION MAKES PARTNERSHIPS

TECHNICAL COMPETENCE FOR LONG-TERM PRODUCTION COOPERATION

Looking for a skilled, reliable partner to produce your precision parts?

Leipold is more than just a contract manufacturer. Our modern machine concepts offer wide variety. We see ourselves as a full range machining provider. Our high level of technical expertise means we can advise you on the whole value chain. Precision is in our DNA.
